

Contract Management Made Simple and Straightforward

What is the average amount of time it takes to create and approve a contract in the manufacturing industry? It is 3.4 weeks as per a recent Forrester survey. Why waste so much time when you can create, review, edit, sign and approve contracts with up to 80% quicker turnaround time using emSigner, a digital signing and workflow management solution. Along the way our paperless office solution also helps your manufacturing company to minimize risk while automating and streamlining each step of a contract's life for both inbound and outbound transactions.

Here are some of the highlights of emSigner:

- emSigner supports collaborative preparation of contracts with track changes and version control
- Using emSigner companies can get the contracts counter-signed by people from outside the organization instantaneously
- emSigner acts as the system of record for all audit and compliance purposes
- emSigner streamlines storage and retrieval of contracts
