

Save Cost and Increase Efficiency with Digitally Signed Invoices Generated using emSigner

As per the recent APQC report, the best performing companies in the manufacturing industry are spending an average of just \$2.07 per invoice; while this number jumps up by nearly five-folds —\$10 — for other companies. Wondering what is the reason? In large part, it boils down to digitization and automation.

Hence what are you waiting for? Embrace the digital age of end-to-end management of invoices — from generation to signing and approval — using emSigner, an innovative digital signing and workflow management solution.

Here are some key features of emSigner:

- emSigner allows you to digitally sign invoices in serial, parallel or bulk from anywhere, through any device instantly, thus enabling effective paperless office transformation
- emSigner provides ESGS (emSigner Gateway Services) for 3rd party integrations with a host of popular ERP, CRM and Accounting Systems such as SAP, Tally, Sage, Epicor, Salesforce and others
- emSigner's audit trail coupled with support for multiple types of digital signatures enables it to meet or exceed regulatory requirements such as EU eIDAS legislation, US E-SIGN Act, UETA and many more
- By utilizing a host of innovative strategies — from high-end encryption and multi-factor authentication to providing granular levels of data access and masking of personal data of users — emSigner offers a perfect blend of utility, convenience, and security
- emSigner's inbuilt hybrid QR code supports online validation of documents by utilizing QR readers and offline verification by using emSigner app. This unique ability can mitigate risks originating from forgery of documents

Save Cost and Increase Efficiency with Digitally Signed e-Invoices Generated Using emSigner

The average cost of preparing, printing and mailing paper-based invoices is a staggering \$12.90, as per a recent Concur report. Now for a financial organization producing 1000 invoices a month, this number translates into \$154,800 per year. Quite remarkable, isn't it!

Why pay such a hefty price when you can get the same job done for less than a dollar — which is over 80% savings on cost — by automating the entire process and generating e-invoices using emSigner, a paperless office solution offered by Prestige Saudi Co. Ltd in collaboration with eMudhra. Along the way you can also:

- Reduce physical file storage space by as much as 67%
- Bring down the average error rate from 30% to as less as 2%
- Significantly accelerate turnaround time to eliminate late payments and capture more early payment discounts
- Enhance information control and regulatory compliance

Here are some key features of emSigner:

- By utilizing a host of innovative strategies — from high-end encryption and multi-factor authentication to providing granular levels of data access and masking of personal data of users — emSigner offers a perfect blend of utility, convenience, and security
- emSigner's inbuilt hybrid QR code supports online validation of documents by utilizing QR readers and offline verification by using emSigner app. This unique ability can mitigate risks originating from forgery of documents
- emSigner's audit trail coupled with support for multiple types of digital signatures enables it to meet or exceed regulatory requirements such as EU eIDAS

legislation, US ESign Act, UETA and many more

- Financial organizations can use emSigner Gateway Services (ESGS) for 3rd party integrations with a host of popular ERP, CRM and Accounting Systems such as SAP, Tally, Sage, Epicor, Salesforce and others

There is plenty of other ways in which emSigner can augment your operations. Get in touch with us at [email](#) to learn more.
