# emSigner: AI Enabled Document Processing Automation Solution for SAP Customers

Automate invoice signing using digital signatures that are legally valid under the Indian IT Act and compliant with GST guidelines.

Value Proposition

- Seamless integration with SAP ECC 6.0 EHP7 & SAP S/4HANA

- Sign and send documents via a one-click process

- Track the status (i.e. sent/ delivered/ completed/ declined and so on) of the documents without moving out of the SAP platform

- Automatic retrieval of document as a signed PDF via a one-click process

- Support for bulk signing of documents

- Save cost and improve customer experience

- Better governance by creating a single source of truth

The Scope of Our Digital Signing Solution

emSigner for SAP is extremely flexible and scalable. Along with supporting electronic signing and approval of invoices, it can also be used for automating workflows related to:

|		
Financials	Material Management	Contract Management
Accounts Payable	Marketing Management	CRM and Helpdesk
Accounts Receivable	Asset Management	Payroll and Human Resource

Co-innovated with SAP

emSigner is a partner solution that is developed in close collaboration with SAP, utilizing best-practices by SAP partner engineers, and subsequently the product is certified by SAP ICC.

Co-Innovated with SAP®

How emSigner Works?
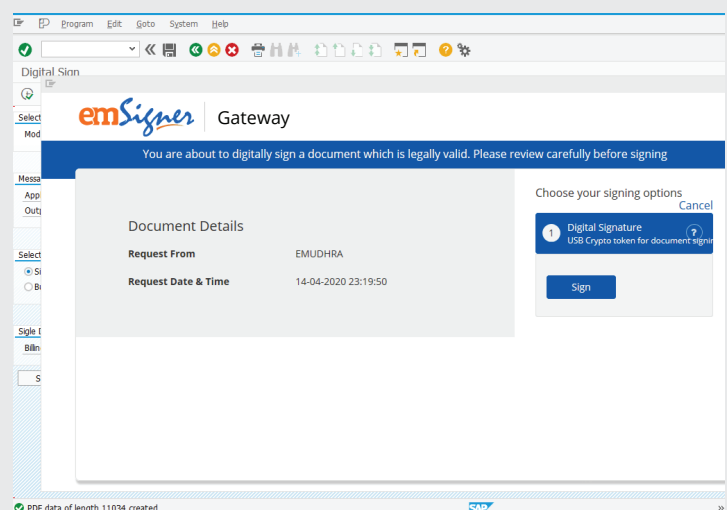

emSigner offers a two-step process to sign documents.

Step 1.

Step 2.
